

# BEST CONFERENCE PAPER AND POSTER AWARDS

## Best Conference Poster Category: PHD Students & Early Career Researchers

---

### EVALUATION COMMITTEE:

Chair: Jordi Segalas (Organising Committee)  
Boris Lazzarini (Organising Committee)

**NOMINEES:** Anna Petit-Boix | Annina Thaller | Lina Katan

**WINNER:** **Anna Petit-Boix** - Albert-Ludwigs University Freiburg - Germany

**Poster:** Measuring the circular economy in cities through the SDGs: a preliminary discussion.

**Authors:** Anna Petit - Boix, Defne Apul and Sina Leipold

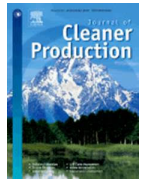

### ARGUMENTATION:

The work highlights how to use SDGs to help cities prioritise circular economy strategies from a resource perspective. Linking Circular Economy to a systemic approach using SDGs as a framework.

The poster communicates very well their work with great graphic design, facilitating the comprehension of their approaches and results.

The poster applies a more comprehensive systemic approach and communicates more clearly the process and results.

# BEST CONFERENCE PAPER AND POSTER AWARDS

## Best Conference Paper Category: PHD Students

---

### EVALUATION COMMITTEE:

Chair: Edurne Inigo (International Organising Committee)  
Elisabet Roca (Organising Committee)  
Frieder Rubik (International Organising Committee)

**NOMINEES:** Maren Ingrid Kropfeld | Erwan Mouazan | Lukas Stumpf | Aranka M. Dijkstra

**WINNER:** **Lukas Stumpf** - Karl-Franzens University Graz - Austria

**Paper:** Circular Economy Business Strategies – A Mixed Methods  
Analysis of 131 Case Studies

**Authors:** Lukas Stumpf, Rupert Baumgartner and Christian Doppler

### ARGUMENTATION:

The manuscript is very well-written and present a striking and relevant analysis of 113 cases of circular strategies, using a mixed methods approach and from an interdisciplinary perspective, assessing their contribution from a scientific and political perspective. Well written, timely and with outstanding methods.

**RUNNER UP:** **Maren Ingrid Kropfeld** - Carl von Ossietzky University Oldenburg - Germany

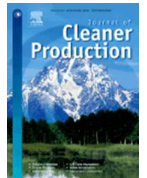

**Paper:** A Practice-Theoretical Framework For Sufficiency-Based Lifestyles

**Authors:** Maren Ingrid Kropfeld

### ARGUMENTATION:

Not only does the paper elaborate on the innovative aspects of sufficiency – essential from a sustainable consumption approach, but also introduces how this is intertwined with the use of public spaces. Very well written, with solid arguments and very innovative.

# BEST CONFERENCE PAPER AND POSTER AWARDS

## Best Conference Paper Category: Early Career Researchers

---

### EVALUATION COMMITTEE:

Chair: Annelise de Jong (International Organising Committee)  
Hans Schitzer (Scientific Committee)  
Jaco Quist (International Organising Committee)

**NOMINEES:** Alessia Romani | Anneli Selvefors | Sarah Broderick | Stephan Hankammer

**WINNER:** **Sarah Broderick** - Clean Technology Centre - Ireland

**Paper:** Assesing the Potential for Food Waste Prevention in the Comercial Food Sector in Ireland

**Authors:** Sarah Broderick, Colum Gibson.

### ARGUMENTATION:

The paper describes a highly innovative approach for charting food waste combining a quantitative and qualitative approach with detailed information on waste flows situated in different contexts. The presentation of the study is excellent and provides good starting points for policy makers and other actors to take action in this sector.

**RUNNER UP:** **Anneli Selvefors** - Chalmers University of Technology - Sweden

**Paper:** A Tool For Charting Circular Consumption Journeys

**Authors:** Anneli Selvefors, Oskar Rexfelt.

### ARGUMENTATION:

The paper addresses a highly relevant topic of design methods for discussing and evaluating circular consumption. The paper is well written with good state of the art, review of the literature, and results are well visually presented. The interactive method is carried out in a top down approach than interactive which would fit this topic.
